The Clinical Journal of Pain
17:385–390 © 2001 Lippincott Williams & Wilkins, Inc., Philadelphia

The Clinical Journal of Pain
Volume 17, 2001

Subject Index

Abdominal hysterectomy
Plasma levels of interleukin-6 and interleukin-10 are affected by ketorolac as an adjunct to patient-controlled morphine after abdominal hysterectomy, 72
Abuse
Screening for problematic prescription opioid use, 220
Acupuncture
Acupuncture, transcutaneous electrical nerve stimulation, and laser therapy in chronic pain, S105
Acupuncture for chronic low back pain: A randomized placebo-controlled study with long-term follow-up, 296
Nonpharmacological treatments for musculoskeletal pain, 33
Addiction
Screening for problematic prescription opioid use, 220
Surgical patients' fear of addiction to pain medication: The effect of an educational program for clinicians, 157
Adherence
Preliminary study of chronic pain patients' concerns about cannabinoids as analgesics, 245
Adjustment
A comparison of blacks and whites seeking treatment for chronic pain, 249
Adverse effects
Preliminary study of chronic pain patients' concerns about cannabinoids as analgesics, 245
Age
Demographic variables and chronic pain, S14
Analgesia
Effectiveness of virtual reality-based pain control with multiple treatments, 229
Temporomandibular joint pain analgesia by linearly polarized near-infrared irradiation, 47

Back pain
Pain catastrophizing predicts pain intensity, disability, and psychological distress independent of the level of physical impairment, 165
Behavioral evaluation
Evaluation of patients for implantable pain modalities: Medical and behavioral assessment, 206
Behavioral measures
Relations between behavioral and cardiac autonomic reactivity to acute pain in preterm neonates, 350
Biobehavioral relations
Relations between behavioral and cardiac autonomic reactivity to acute pain in preterm neonates, 350
Biopsychosocial treatment
A biopsychosocial overview of pretreatment screening of patients with pain, 192
Biopsychosocial approaches to the treatment of chronic pain, S114
How effective is the acute low back pain screening questionnaire for predicting 1-year follow-up in patients with low back pain?, 256
Book reviews
Clinical anesthesia, Fourth Edition, 380
Handbook of Clinical Anesthesia, Fourth Edition, 380
Pelvic Pain, Diagnosis, and Management, 276
Personality Characteristics of Patients With Pain, 187
Practical Management of Pain, 101
Sex, Gender, and Pain, 102

Burn pain
Effectiveness of virtual reality-based pain control with multiple treatments, 229

Cannabinoids
Preliminary study of chronic pain patients' concerns about cannabinoids as analgesics, 245
Cardiorespiratory endurance
Cardiorespiratory fitness, physical activity level, and chronic pain: Are men more affected than women?, 129
Case report
Chemical sympathectomy for neuropathic pain: Does it work?, 327
Catastrophizing
Pain catastrophizing predicts pain intensity, disability, and psychological distress independent of the level of physical impairment, 165
Pain-related catastrophizing: What is it?, 65
Theoretical perspectives on the relation between catastrophizing and pain, 52
Central sensitization
Central hypersensitivity in chronic pain after whiplash injury, 306
Cervicogenic headache
International Headache Society headache diagnostic patterns in pain facility patients, 78
Chemical sympathectomy
Chemical sympathectomy for neuropathic pain: Does it work?, 327
Child
Pain treatment thresholds in children after major surgery, 173
Chronic daily headache
Headache continuum: Concept and supporting evidence from recent study of chronic daily headache, 337
Chronic low back pain
Acupuncture for chronic low back pain: A randomized placebo-controlled study with long-term follow-up, 296
Chronic neck pain
Exercise in the treatment of chronic pain, S77
Manipulation and mobilization in the treatment of chronic pain, S70
Chronic pain
Acupuncture, transcutaneous electrical nerve stimulation, and laser therapy in chronic pain, S105
An investigation of symptom-specific muscle hyperreactivity in upper extremity cumulative trauma disorder, 119
Biopsychosocial approaches to the treatment of chronic pain, S114
Cardiorespiratory fitness, physical activity level, and chronic pain: Are men more affected than women?, 129
Central hypersensitivity in chronic pain after whiplash injury, 306
A comparison of blacks and whites seeking treatment for chronic pain, 249
Employment-related factors in chronic pain and chronic pain disability S39
Injections and surgical therapy in chronic pain, S94
Interventions for disability management, S128
Physical symptoms and signs and chronic pain, S26
Psychological factors and the development of chronic pain, S33
Role of childhood and adult abuse among women presenting for chronic pain management, 359
Screening for problematic prescription opioid use, 220

Sexual difficulties of chronic pain patients, 138
Systemic drug treatment for chronic musculoskeletal pain, S86
Chronic pain disability
Biopsychosocial approaches to the treatment of chronic pain, S114
Compensation and chronic pain, S46
Demographic variables and chronic pain, S14
Employment-related factors in chronic pain and chronic pain disability, S39
Interventions for disability management, S128
Medical history and chronic pain, S20
Physical symptoms and signs and chronic pain, S26
Psychological factors and the development of chronic pain, S33
Chronic posttraumatic headache
Manipulation and mobilization in the treatment of chronic pain, S70
Chronic shoulder pain
Manipulation and mobilization in the treatment of chronic pain, S70
Clinician education
Surgical patients' fear of addiction to pain medication: The effect of an educational program for clinicians, 157
Cognitive–behavioral treatment
Biopsychosocial approaches to the treatment of chronic pain, S114
Cold pain
Quantitative sensory testing in fibromyalgia patients and in healthy subjects, 316
Compensation
Compensation and chronic pain, S46
Complex regional pain syndrome
Screening of patients with complex regional pain syndrome for antecedent infections, 110
Complex regional pain syndrome type I
Clinical and physiologic evaluation of stellate ganglion blockade for complex regional pain syndrome type I, 94
Polycythemia vera presenting as complex regional pain syndrome of the lower limbs, 236
Coping Strategies Questionnaire
Pain-related catastrophizing: What is it?, 65
Cultural differences
A comparison of blacks and whites seeking treatment for chronic pain, 249
Psychometric properties of a Spanish version of the McGill Pain Questionnaire in several Spanish-speaking countries, 365
Cumulative trauma disorder
An investigation of symptom-specific muscle hyperreactivity in upper extremity cumulative trauma disorder, 119
Current perception threshold
High-concentration tetracaine for the management of trigeminal neuralgia: Quantitative assessment of sensory function after peripheral nerve block, 323
Cycle ergometer test
Cardiorespiratory fitness, physical activity level, and chronic pain: Are men more affected than women?, 129
Cytokines
Plasma levels of interleukin-6 and interleukin-10 are affected by ketorolac as an adjunct to patient-controlled morphine after abdominal hysterectomy, 72

Daily headache
Headache continuum: Concept and supporting evidence from recent study of chronic daily headache, 337
Demographic variables
Demographic variables and chronic pain, S14
Dependence
Screening for problematic prescription opioid use, 220
Depression
Psychological factors and the development of chronic pain, S33
Theoretical perspectives on the relation between catastrophizing and pain, 52
Disability
Pain catastrophizing predicts pain intensity, disability, and psychological distress independent of the level of physical impairment, 165
Theoretical perspectives on the relation between catastrophizing and pain, 52
Distraction
Effectiveness of virtual reality-based pain control with multiple treatments, 229
Drug therapy
Pharmacologic pain treatment of musculoskeletal disorders: Current perspectives and future prospects, 25
Systemic drug treatment for chronic musculoskeletal pain, 10517

Editorials
Combining somatic and psychosocial treatment for chronic pain patients: Perhaps 1 + 1 does = 3, 281
Management of pain: Best of times, worst of times?, 107
Effectiveness
Gabapentin for neuropathic pain: Systematic review of controlled and uncontrolled literature, 284
Efficacy
Gabapentin for neuropathic pain: Systematic review of controlled and uncontrolled literature, 284
Electromyography
An investigation of symptom-specific muscle hyperreactivity in upper extremity cumulative trauma disorder, 119
Biopsychosocial approaches to the treatment of chronic pain, S114
Electrotherapy
Nonpharmacological treatments for musculoskeletal pain, 33
Employment-related factors
Employment-related factors in chronic pain and chronic pain disability, S39
Eutectic mixture of local anesthetics (EMLA)
Eutectic mixture of local anesthetics reduces pain during intravenous catheter insertion in the pediatric patient, 115
Evidenced-based medicine
Chemical sympathectomy for neuropathic pain: Does it work?, 327
Exercise
Exercise in the treatment of chronic pain, S77
Nonpharmacological treatments for musculoskeletal pain, 33
Experimental findings
Referred muscle pain: Basic and clinical findings, 11

Faces Pain Scale
Pain treatment thresholds in children after major surgery, 173
Facial action
Facial expression of children receiving immunizations: A principal components analysis of the Child Facial Coding System, 178
Fibromyalgia
Exercise in the treatment of chronic pain, S77
Quantitative sensory testing in fibromyalgia patients and in healthy subjects, 316
Fitness evaluation
Cardiorespiratory fitness, physical activity level, and chronic pain: Are men more affected than women?, 129
Follow-up
How effective is the acute low back pain screening questionnaire for predicting 1-year follow-up in patients with low back pain?, 256
Functional disability
Depression and functional disability in chronic pediatric pain, 341

Gabapentin
Gabapentin for neuropathic pain: Systematic review of controlled and noncontrolled literature, 284

Gender
Demographic variables and chronic pain, S14

Headache
International Headache Society headache diagnostic patterns in pain facility patients, 78
Heat pain
Quantitative sensory testing in fibromyalgia patients and in healthy subjects, 316
Herniation
Psychological screening in the surgical treatment of lumbar disc herniation, 215
High-concentration tetracaine
High-concentration tetracaine for the management of trigeminal neuralgia: Quantitative assessment of sensory function after peripheral nerve block, 323
Hyperalgesia
Central hypersensitivity in chronic pain after whiplash injury, 306
The peripheral apparatus of muscle pain: Evidence from animal and human studies, 2
Hyperexcitability
Referred muscle pain: Basic and clinical findings, 11

IHS headache diagnostic criteria
International Headache Society headache diagnostic patterns in pain facility patients, 78
Immunization
Facial expression of children receiving immunizations: A principal components analysis of the Child Facial Coding System, 178
Implantation
Evaluation of patients for implantable pain modalities: Medical and behavioral assessment, 206
Inflammation
Screening of patients with complex regional pain syndrome for antecedent infections, 110
Initial pain intensity
Physical symptoms and signs and chronic pain, S26
Injections
Injections and surgical therapy in chronic pain, S94
Interleukin-6
Plasma levels of interleukin-6 and interleukin-10 are affected by ketorolac as an adjunct to patient-controlled morphine after abdominal hysterectomy, 72
Interleukin-10
Plasma levels of interleukin-6 and interleukin-10 are affected by ketorolac as an adjunct to patient-controlled morphine after abdominal hysterectomy, 72
Intrathecal
Stability, compatibility, and safety of intrathecal bupivacaine administered chronically via an implantable delivery system, 239

Ketorolac
Plasma levels of interleukin-6 and interleukin-10 are affected by ketorolac as an adjunct to patient-controlled morphine after abdominal hysterectomy, 72

Laminotomy
Psychological screening in the surgical treatment of lumbar disc herniation, 215
Laser Doppler flowmetry
Clinical and physiologic evaluation of stellate ganglion blockade for complex regional pain syndrome type I, 94
Lateral epicondylitis
Injections and surgical therapy in chronic pain, S94
Letters to the editor
acute pain after oral surgery, 104
complex regional pain syndrome, 375
cyclobenzaprine hydrochloride, 103
Minimal acupuncture may not always minimize specific effects of needling, 277
Lidocaine
Eutectic mixture of local anesthetics reduces pain during intravenous catheter insertion in the pediatric patient, 115
Local anesthesia
Central hypersensitivity in chronic pain after whiplash injury, 306
Stability, compatibility, and safety of intrathecal bupivacaine administered chronically via an implantable delivery system, 239
Long-term relief
Acupuncture for chronic low back pain: A randomized placebo-controlled study with long-term follow-up, 296
Low back pain
Compensation and chronic pain, S46
Exercise in the treatment of chronic pain, S77
How effective is the acute low back pain screening questionnaire for predicting 1-year follow-up in patients with low back pain?, 256
Injections and surgical therapy in chronic pain, S94
Manipulation and mobilization in the treatment of chronic pain, S70
Lumbar disc
Psychological screening in the surgical treatment of lumbar disc herniation, 215

Manipulation and mobilization
Manipulation and mobilization in the treatment of chronic pain, S70
Manual therapy
Nonpharmacological treatments for musculoskeletal pain, 33
Marital status
Demographic variables and chronic pain, S14
McGill Pain Questionnaire
Psychometric properties of a Spanish version of the McGill Pain Questionnaire in several Spanish-speaking countries, 365
Medication
Preliminary study of chronic pain patients' concerns about cannabinoids as analgesics, 245
Meta-analysis
Gabapentin for neuropathic pain: Systematic review of controlled and uncontrolled literature, 284
Methadone
A case of a methadone-induced movement disorder, 375
Methemglobinemia
Eutectic mixture of local anesthetics reduces pain during intravenous catheter insertion in the pediatric patient, 115
Migraine
International Headache Society headache diagnostic patterns in pain facility patients, 78
Modified work programs
Employment-related factors in chronic pain and chronic pain disability, S39
Interventions for disability management, S128
Morphine
Plasma levels of interleukin-6 and interleukin-10 are affected by ketorolac as an adjunct to patient-controlled morphine after abdominal hysterectomy, 72
Mouth opening
Temporomandibular joint pain analgesia by linearly polarized near-infrared irradiation, 47
Muscle nociception
The peripheral apparatus of muscle pain: Evidence from animal and human studies, 2
Muscle pain
The peripheral apparatus of muscle pain: Evidence from animal and human studies, 2
Referred muscle pain: Basic and clinical findings, 11

Musculoskeletal pain
Pharmacologic pain treatment of musculoskeletal disorders: Current perceptives and future prospects, 25
Sex differences in musculoskeletal pain, 20

Near-infrared ray
Temporomandibular joint pain analgesia by linearly polarized near-infrared irradiation, 47
Nerve block
High-concentration tetracaine for the management of trigeminal neuralgia: Quantitative assessment of sensory function after peripheral nerve block, 323
Neuraxial drug administration
Evaluation of patients for implantable pain modalities: Medical and behavioral assessment, 206
Stability, compatibility, and safety of intrathecal bupivacaine administered chronically via an implantable delivery system, 239
Neuropathic pain
Chemical sympathectomy for neuropathic pain: Does it work?, 327
Gabapentin for neuropathic pain: Systematic review of controlled and uncontrolled literature, 284

Opioids
A biopsychosocial overview of pretreatment screening of patients with pain, 192
Screening for problematic prescription opioid use, 220
Systemic drug treatment for chronic musculoskeletal pain, S86
Outcomes
How effective is the acute low back pain screening questionnaire for predicting 1-year follow-up in patients with low back pain?, 256
Oxycodone
A case of a methadone-induced movement disorder, 375

Pain
A biopsychosocial overview of pretreatment screening of patients with pain, 192
Facial expression of children receiving immunizations: A principal components analysis of the Child Facial Coding System, 178
Pain-related catastrophizing: What is it?, 65
Pain treatment thresholds in children after major surgery, 173
Relations between behavioral and cardiac autonomic reactivity to acute pain in preterm neonates, 350
Temporomandibular joint pain analgesia by linearly polarized near-infrared irradiation, 47
Theoretical perspectives on the relation between catastrophizing and pain, 52
Validation of the WHOQOL-100: Pain management improves quality of life for chronic pain patients, 264
Pain assessment
Facial expression of children receiving immunizations: A principal components analysis of the Child Facial Coding System, 178
Psychometric properties of a Spanish version of the McGill Pain Questionnaire in several Spanish-speaking countries, 365
Pain coping
Depression and functional disability in chronic pediatric pain, 341
Pain facility
International Headache Society headache diagnostic patterns in pain facility patients, 78
Pain intensity
Pain catastrophizing predicts pain intensity, disability, and psychological distress independent of the level of physical impairment, 165
Pain management
Validation of the WHOQOL-100: Pain management improves quality of life for chronic pain patients, 264
Pain measurement
Pain treatment thresholds in children after major surgery, 173
Pain thresholds
Sex differences in musculoskeletal pain, 20
Pain treatment thresholds
Pain treatment thresholds in children after major surgery, 173
Parvovirus B19
Screening of patients with complex regional pain syndrome for antecedent infections, 110
Past negative life events
Psychological factors and the development of chronic pain, S33
Patient-controlled analgesia
Plasma levels of interleukin-6 and interleukin-10 are affected by ketorolac as an adjunct to patient-controlled morphine after abdominal hysterectomy, 72
Patient selection
Evaluation of patients for implantable pain modalities: Medical and behavioral assessment, 206
Patients with chronic pain
International Headache Society headache diagnostic patterns in pain facility patients, 78
Pediatric pain
Depression and functional disability in chronic pediatric pain, 341
Facial expression of children receiving immunizations: A principal components analysis of the Child Facial Coding System, 178
Physical activity
Cardiorespiratory fitness, physical activity level, and chronic pain: Are men more affected than women?, 129
Physical findings
Physical symptoms and signs and chronic pain, S26
Physical impairment
Pain catastrophizing predicts pain intensity, disability, and psychological distress independent of the level of physical impairment, 165
Physical therapy
Nonpharmacological treatments for musculoskeletal pain, 33
Physiologic measures
Relations between behavioral and cardiac autonomic reactivity to acute pain in preterm neonates, 350
Physiotherapy
How effective is the acute low back pain screening questionnaire for predicting 1-year follow-up in patients with low back pain?, 256
Polycythemia vera (PCV)
Polycythemia vera presenting as complex regional pain syndrome of the lower limbs, 236
Population-based study
Sexual difficulties of chronic pain patients, 138
Postoperative pain
Pain treatment thresholds in children after major surgery, 173
Surgical patients' fear of addiction to pain medication: The effect of an educational program for clinicians, 157
Premature neonates
Relations between behavioral and cardiac autonomic reactivity to acute pain in preterm neonates, 350
Prescreening
A biopsychosocial overview of pretreatment screening of patients with pain, 192
Pressure
Sex differences in musculoskeletal pain, 20
Previous injury
Medical history and chronic pain, S20
Psychogenic pain
Finding pain between minds and bodies, 146
Psychological distress
Central hypersensitivity in chronic pain after whiplash injury, 306
Pain catastrophizing predicts pain intensity, disability, and psychological distress independent of the level of physical impairment, 165

Psychological factors
Psychological factors and the development of chronic pain, S33
Psychometrics
Psychological screening in the surgical treatment of lumbar disc herniation, 215
Psychophysiology
An investigation of symptom-specific muscle hyperreactivity in upper extremity cumulative trauma disorder, 119
Psychosocial disability
A biopsychosocial overview of pretreatment screening of patients with pain, 192

Quality of life
Validation of the WHOQOL-100: Pain management improves quality of life for chronic pain patients, 264
Quantitative sensory testing
Quantitative sensory testing in fibromyalgia patients and in healthy subjects, 316

Racial differences
A comparison of blacks and whites seeking treatment for chronic pain, 249
Randomized placebo-controlled trial
Acupuncture for chronic low back pain: A randomized placebo-controlled study with long-term follow-up, 296
Recurrent injury
Medical history and chronic pain, S20
Referred pain
Referred muscle pain: Basic and clinical findings, 11
Reflex sympathetic dystrophy
A case of a methadone-induced movement disorder, 375
Screening of patients with complex regional pain syndrome for antecedent infections, 110
Repetition strain injury
An investigation of symptom-specific muscle hyperreactivity in upper extremity cumulative trauma disorder, 119
Review
Acupuncture, transcutaneous electrical nerve stimulation, and laser therapy in chronic pain, S105
Biopsychosocial approaches to the treatment of chronic pain, S114
Compensation and chronic pain, S46
Demographic variables and chronic pain, S14
Employment-related factors in chronic pain and chronic pain disability, S39
Exercise in the treatment of chronic pain, S77
Injections and surgical therapy in chronic pain, S94
Interventions for disability management, S128
Manipulation and mobilization in the treatment of chronic pain, S70
Medical history and chronic pain, S20
Physical symptoms and signs and chronic pain, S26
Psychological factors and the development of chronic pain, S33
Systemic drug treatment for chronic musculoskeletal pain, S86
Risk factors
Sex differences in musculoskeletal pain, 20

Sciatica
Psychological screening in the surgical treatment of lumbar disc herniation, 215
Screening
Screening for problematic prescription opioid use, 220
Sensitization
The peripheral apparatus of muscle pain: Evidence from animal and human studies, 2
Serologic status
Screening of patients with complex regional pain syndrome for antecedent infections, 110
Sex differences
Sex differences in musculoskeletal pain, 20
Sexual problems
Sexual difficulties of chronic pain patients, 138
Somatization
Finding pain between minds and bodies, 146
Spinal cord stimulation
Evaluation of patients for implantable pain modalities: Medical and behavioral assessment, 206
Stability, compatibility, and safety of intrathecal bupivacaine administered chronically via an implantable delivery system, 239
Stability
Stability, compatibility, and safety of intrathecal bupivacaine administered chronically via an implantable delivery system, 239
Stellate ganglion blockade
Clinical and physiologic evaluation of stellate ganglion blockade for complex regional pain syndrome type I, 94
Subarachnoid
Stability, compatibility, and safety of intrathecal bupivacaine administered chronically via an implantable delivery system, 239
Subgroups
Quantitative sensory testing in fibromyalgia patients and in healthy subjects, 316
Suffering
Finding pain between minds and bodies, 146
Surgery
A biopsychosocial overview of pretreatment screening of patients with pain, 192
Injections and surgical therapy in chronic pain, S94
Plasma levels of interleukin-6 and interleukin-10 are affected by ketorolac as an adjunct to patient-controlled morphine after abdominal hysterectomy, 72
Sympathetic nervous system
Clinical and physiologic evaluation of stellate ganglion blockade for complex regional pain syndrome type I, 94
Symptoms
Medical history and chronic pain, S20
Systematic review
Chemical sympathectomy for neuropathic pain: Does it work?, 327
Gabapentin for neuropathic pain: Systematic review of controlled and uncontrolled literature, 284

Temporomandibular disorder
Temporomandibular joint pain analgesia by linearly polarized near-infrared irradiation, 47
Time off work
Medical history and chronic pain, S20
Transcutaneous electrical nerve stimulation
Acupuncture, transcutaneous electrical nerve stimulation, and laser therapy in chronic pain, S105
Transnational studies
Psychometric properties of a Spanish version of the McGill Pain Questionnaire in several Spanish-speaking countries, 365
Tremor
A case of a methadone-induced movement disorder, 375
Trigeminal neuralgia
High-concentration tetracaine for the management of trigeminal neuralgia: Quantitative assessment of sensory function after peripheral nerve block, 323

Upper extremity pain
Exercise in the treatment of chronic pain, S77

Validity
Validation of the WHOQOL-100: Pain management improves quality of life for chronic pain patients, 264

Venesection
Polycythemia vera presenting as complex regional pain syndrome of the lower limbs, 236
Virus
Screening of patients with complex regional pain syndrome for antecedent infections, 110
Visual analogue scale
Quantitative sensory testing in fibromyalgia patients and in healthy subjects, 316
Virtual reality
Effectiveness of virtual reality-based pain control with multiple treatments, 229
Whiplash
Central hypersensitivity in chronic pain after whiplash injury, 306
WHOQOL
Validation of the WHOQOL-100: Pain management improves quality of life for chronic pain patients, 264
Work autonomy
Employment-related factors in chronic pain and chronic pain disability, S39
Work-conditioning
Interventions for disability management, S128
Work-hardening
Interventions for disability management, S128

STATEMENT OF OWNERSHIP MANAGEMENT AND CIRCULATION (Required by 39 U.S.C. 3685) 1. Publication Title: THE CLINICAL JOURNAL OF PAIN 2. Publication no.: 0749-8047. 3. Filing date: 10-01-01. 4. Frequency of issue: Quarterly 5. No. of issues published annually: 4; 6. Annual subscription price: $ 168.00 7. Complete mailing address of known office of publication: Lippincott Williams & Wilkins, 16522 Hunters Green Parkway, Hagerstown, MD 21740-2116. 8. Complete mailing address of the headquarters of general business offices of the publisher: 530 Walnut Street, Philadelphia, PA 19106. 9. Full names and complete mailing address of publisher, editor, and managing editor: Publisher: Lippincott Williams & Wilkins, Inc., 530 Walnut Street, Philadelphia, PA 19106; Editor: Dennis C. Turk, Ph.D., Dept of Anesthesiology, University of Washington, Seattle, WA 98195. Managing Editor: Julie Porter, CJP Managing Editor, 9327 West Nova Avenue, Littleton, CO 80128. 10. Owner: Lippincott Williams & Wilkins, Wolters Kluwer, US, Wolters Kluwer, Wolters Kluwer nv (owns 100% of stock), 530 Walnut Street, Philadelphia, PA 19106; 351 West Camden Street, Baltimore MD 21201; 345 Hudson Street, New York, NY 10014; Stadouderskade 1, 1054 FS Amsterdam, The Netherlands. 11. Known bondholders, mortgagees, and other security holders owning or holding 1% or more of total amount of bonds, mortgages, or other securities: None. 12. Purpose, function, and nonprofit status: Has not changed during preceding 12 months. 13. Publication Name: THE CLINICAL JOURNAL OF PAIN 14. Issue Date for circulation data: Volume 17, Issue 3. 15. Extent and nature of circulation: Average number of copies each issue during preceding 12 months: (a) Total No. copies (Net Press Run), 1,300. (b) Paid and/or requested circulation: (1) Paid/requested outside-county mail subscriptions stated on form 3541. (Include advertiser's proof and exchange copies), 813,; (2) Paid in-county subscriptions (include advertiser's proof and exchange copies), N/A; (3) Sales through dealers and carriers, street vendors, counter sales, and other non-USPS paid distribution, 472; (4) Other classes mailed through the USPS, N/A. (c) Total paid and/or requested circulation (sum of 15b (1), (2), (3), and (4)), 1,233. (d) Free distribution by mail (samples, complimentary, and other free). (1) Outside-county as stated on form 3541, 321; (2) In county as stated on form 3541, N/A; (3) Other classes mailed through the USPS, N/A. (e) Free distribution outside the mail (carriers or other means), 132. (f) Total free distribution (sum of 15d and 15e), 363. (g) Total distribution (Sum of 15c and 15f), 1596. (h) Copies not distributed, −296. (i) Total (sum of 15g and h), 1,300. (j) Percent paid and/or requested circulation (15c divided by 15g times 100) 77.26%. No. copies of single issue published nearest to filing date: (a) Total no. copies (Net Press Run), 1000. (b) Paid and/or requested circulation; (1) Paid/requested outside-county mail subscriptions stated on form 3541, (Include advertiser's proof and exchange copies), 767; (2) Paid in-county subscriptions (include advertiser's proof and exchange copies), N/A; (3) Sales through dealers and carriers, street vendors, counter sales, and other non-USPS paid distribution, 466; (4) Other classes mailed through the USPS, N/A. (c) Total paid and/or requested circulation (sum of 15b. (1), (2), (3), and (4)), 1,233. (d) Free distribution by mail (samples, complimentary, and other free), (1) Outside-county as stated on form 3541, 153; (2) In-county as stated on form 3541, N/A; (3) Other classes mailed through the USPS, N/A. (e) Free distribution outside the mail (carriers or other means), 93. (f) Total free distribution (sum of 15d and 15e), 246. (g) Total distribution (Sum of 15c and 15f), 1,479. (h) Copies not distributed, −749. (i) Total (sum of 15g and h), 1,000. (j) Percent paid and/or requested circulation (15c divided by 15g × 100), 83.37%. 16.This Statement of Ownership will be printed in volume 17, issue 4 of this publication. 17. I certify that the statements made by me above are correct and complete. Jeffrey Brown, *Manager, Periodical Operations*
